## PROFILE

Professional open to new experiences and challenges, motivated by learning and contributing with her knowledge. Her main objective is to always improve, not only professionally but also personally. Analytical and very perceptive, her fundamental values are respect and honesty.

## EXPERIENCE

### Willis Towers Watson - Mexico City, México, 2014-2017

*Investment Analyst*

She implemented improvements to the information requesting process by creating a database. Using the database, she was able to identify and remove information duplicities in information requests, which decreased the workload, encouraged the teamwork and allowed the area to become more efficient.

She also shortened the quarterly reports delivery time, through a continuous organization, constant monitoring, and good communication, she managed to deliver reports up to one week in advance. This generated a positive impact on the area's quality service and attracted more customers.

### Mexipass de México, Mexico City, México, 2014

*Insurance Agent*

She was involved in the establishment process of the company in Mexico, as part of her role she actively learned about the processes that a company needs to be able to operate, such as, administrative, accounting, negotiation and customer service.

## EDUCATION

### Laboratoria - Santiago, Chile, 2019

*Front End Developer Bootcamp*

Through an agile methodology, She learned to develop web products focused on the user, She also developed a self-learning ability.

### Taller Fashion Development Project -Mexico City, México, 2016

*Introduction to the direction of fashion enterprises*

She acquired general knowledge as well as the necessary skills to run a company in this field.

### UNAM- Mexico City, México, 2014

*Certified course on Business Administration*

She learned to detect business opportunities, improved her skills in decision making, negotiation and communication.

### UNAM - Mexico City, México, 2014

*Bachelor's Degree in Actuarial Science*

She acquired analytical reasoning through the creative application of mathematical principles with a focus on risk management.
